### The Kamehameha Schools

NEXT SCHOOL YEAR BEGINS SEPT. 10, 1917. APPLICATIONS FOR ADMISSION SHOULD BE MADE EARLY.

For application blanks and complete information address E. C. WEBSTER, President of Kamehameha Schools, Honolulu, T. H.

Easy Starting

Low boiling points do it—the first links in a continuous chain of boiling points. Low boiling points for easy starting, medium boiling points for quick and smooth acceleration, and high boiling points for power and mileage.

Red Crown is a straight-distilled gasoline. Hence there's a continuous chain of boiling points, gradually rising from low to high.

Mixtures cannot have a continuous chain of boiling points. That's why mixtures cannot be as good motor fuel as pure straight-run gasoline. And that's also why the gravity test for gasoline is worthless—gravity tells nothing at all about boiling points, the only real test of gasoline quality.

To make certain of getting real gasoline, and not a mixture, fill with

### ENGLES COPPER GETS POWER AND TRANSPORTATION

(Special Star-Bulletin Correspondence) TAYLORSVILLE, Cal., July 22.—With the completion of the Indian Valley railroad connecting the mine with the Western Pacific and the extension of a power transmission system sufficient for the needs of the operations, the Engle mine is in a better position than ever to develop the great bodies of rich copper ore that have been encountered in the development and operation of the property.

Elmer E. Paxton, general manager and treasurer of the Engle Copper company and of the Indian Valley railroad, states rich ore has been struck, dividends of 1 1/2 cents a share are being paid monthly, and the company plans extensive improvements to the plant for the working of the Plumas copper belt. Harry Engle, the discoverer and pioneer operator of the mine in Lights canyon, is now president of the company.

Paxton, referring to the proposed improvements at the mine said: "Our present plant has a capacity of 500 tons daily, and we are now installing an additional unit that will treat 800 tons. The development of our plant does not cease here, for we also propose to increase the capacity of our present mill and to bring it up, before the year is out, to about 1500 tons per day."

"At a depth of 250 feet below our present main working tunnel, we have encountered a large body of very rich ore. This tunnel, which we call No. 6, is 2500 feet in length and in the process of driving it a large amount of fine milling ore was disclosed, before this main body of bonite was encountered. This bonite ore is in diorite and it possesses a copper content, ranging from 5 to 30 per cent. So far as it has been disclosed, I have no hesitation in saying that the body is of very considerable magnitude."

"In the very near future, we propose to start a lower tunnel which will cut the deposit, 800 feet below the face in tunnel No. 6. Our development thus far shows that the ore zone expands at depth, grows more persistent, and is of better grade."

The present dividends being paid to stockholders amount to about \$300,000 a year, but the earnings of the company are much larger and a great part of the surplus is being put back into the property in the way of improvements.

### COLORADO LEADS IN BEET PLANTS

An analysis of the reports received show that Colorado again leads the beet growing states in the total acreage planted to beets, with California again second and Michigan, only more in third place. The estimated 1917 sowings for these states and others, compared with the acreage harvested in 1916, follow:

State	1917 Planted Acre	1916 Harvested Acre
Colorado	241,000	188,568
California	185,000	141,097
Michigan	125,000	100,619
Utah and Idaho	151,500	110,346
Ohio	37,400	24,767
Wisconsin		
Nebraska		
Wyoming		
Oregon		
Illinois		
Indiana	170,551	100,011
Iowa		
Kansas		
Minnesota		
Montana		
Nevada		
Washington		

Total 880,754 665,308  
\*Including beets grown in New Mexico shipped to a Colorado factory.

Much of the 18 per cent increase in the acreage planted this year over 1916 is due largely to the 15 new factories operating this year, and to the resumption of operations by five old factories.

Only Four Plants Closed  
The factories not operating this campaign are Marine City, Michigan; Lamar, Colorado; Waverly, Iowa; and Glendale, Arizona.

Reports from the various factories indicate that careful preparation is being made to insure a maximum production this year. The factories distributed by states are as follows:

State	No. of Factories Operating	No. of Factories Closed	Total No. Factories
Michigan	15	1	16
Colorado	15	1	16
California	15	0	15
Utah	15	0	15
Idaho	15	0	15
Ohio	5	0	5
Nebraska	4	0	4
Wisconsin	4	0	4
Wyoming	3	0	3
Montana	3	0	3
Oregon	1	0	1
Illinois	1	0	1
Indiana	1	0	1
Kansas	1	0	1
Minnesota	1	0	1
Nevada	1	0	1
Washington	1	0	1
Arizona	0	1	1
Iowa	1	1	2
Total—19	94	4	98

### TRENT TRUST BIDS PAR FOR BERETANIA BONDS

The Trent Trust Co. was the only bidder for the Beretania street improvement bonds which were opened Saturday at the office of the city treasurer. The bid was \$10,800, or the par value of the bonds. This is the first time that a Honolulu improvement bond issue has sold at par, all the previous ones selling at a premium of from one to two per cent.

Sillicus—So you think their friendship will end in marriage, eh?  
Cynicus—Yes, I guess that will be the end of it.—Town Topics.

BY AUTHORITY  
INVITING PROPOSALS FOR TERRITORY OF HAWAII 4% PUBLIC IMPROVEMENT BONDS, 1917.

The Territory of Hawaii under the provisions of an Act of Congress, entitled "An Act to Provide a Government for the Territory of Hawaii," approved April 30, 1900 (31 Sts. 141), as amended by an Act of Congress approved May 27, 1910 (36 Sts. 443), and pursuant to an Act of the Legislature of the Territory of Hawaii entitled "An Act to Provide for Public Loans," approved April 25, 1903, as amended, and pursuant to an Act of the Legislature of the Territory of Hawaii, entitled "An Act to Provide for Public Improvements," approved May 2, 1917, offers at public sale \$1,500,000 Public Improvement Coupon Bonds of the Territory of Hawaii bearing interest payable semi-annually, at the rate of 4 per cent per annum.

Bids will be received at the office of the United States Mortgage and Trust Company, 55 Cedar Street, New York City, or at the office of the Treasurer of the Territory of Hawaii in Honolulu, Hawaii, until 10 o'clock A. M. of August 30, 1917.

The right is reserved to reject any and all bids.

Further information may be had on application at the office of the United States Mortgage and Trust Company, New York City, or at the office of the Treasurer of the Territory of Hawaii in Honolulu, Hawaii.

(Signed) C. J. MCCARTHY, Treasurer, Territory of Hawaii. 6857—Aug. 6, 11, 18, 20, 29.

NOTICE TO THE SHAREHOLDERS OF THE MONTANA-BINGHAM CONSOLIDATED MINING CO.

It is requested that all persons holding stock in the above-named company call at the office of the Henry Waterhouse Trust Co., Ltd., not later than 10 o'clock a. m. of the 8th inst., for the purpose of executing a proxy to C. G. Ballentine authorizing him on their behalf to investigate the financial and other affairs of this company with a view to reporting the findings to the interested parties.

JORGEN JORGENSEN, Director Montana-Bingham Consolidated Mining Co. 6857—Aug. 6, 7

### WASHINGTON NOT ALARMED OVER SUGAR SITUATION

Efforts to Stir Up Excitement Meet No Encouragement From Officials

(Special Star-Bulletin Correspondence) WASHINGTON, D. C., July 28.—The efforts of hard newspapermen to stir up excitement over the sugar situation, following similar fruitless attacks on other food industries, are meeting with no encouragement here. Through the work done by the various departments, by the staff of Herbert C. Hoover's office the government is fully informed as to the extent of available supplies of food stuffs and as to conditions attending the production and distribution of these supplies.

Growing conditions of all important crops, the progress of marketing of those that have been or are being harvested and the prices being paid all along the line from producer to consumer are being watched and reported upon more fully and carefully than ever before. In view of the elaborate and exact information that is coming to the hands of the various representatives of the administration from day to day and week to week this is a particularly poor time for sensation-mongers and professional muck-rakers to ply their trade, although many of them have been in evidence here during the past three months.

So far as the sugar situation is concerned it can be said with entire confidence that the representatives of the various departments and bureaus interested in this subject are fully informed as to conditions, both in the producing and distributing branches of the industry. By the time the food control bill becomes law Mr. Hoover and his assistants will have before them a complete array of statistics as to all phases of the sugar situation and complete information and assurances as to the desire of all elements in the industry to cooperate in handling the available supply of sugar in such ways as may be of greatest advantage to the American people and their allies in the war.

No Disruption of Trade  
It can be said positively that the investigation that has been conducted quietly but thoroughly in different parts of the country by representatives of the responsible authorities has shown nothing that would justify any criticism of the men engaged in the sugar industry. No action is contemplated that will disrupt trade conditions or cause any serious market disturbance. The cornerstone of the policy which the food administration plans to follow is the encouragement of production, and the superstructure will be intelligent food conservation and efficient distribution of supplies in the manner most beneficial to the United States and its allies.

There is nothing in the program to justify alarmist reports or predictions of serious interference with the orderly course of trade.

It seems probable from present indications that a more complete and detailed statement of the plans in view in regard to sugar can be made within the next 10 days, or at least before the end of the present month.

### FREDERICK MUIR PLANS ANOTHER ORIENT TRIP

Frederick Muir, entomologist of the Hawaiian Sugar Planters' experiment station, has returned to Honolulu after a three month visit to the mainland. He is now anticipating another trip to the Orient on entomological work.

Although scarcely enough time has elapsed since their introduction to give them an opportunity to show their effectiveness in accomplishing the purpose for which they were brought here, Mr. Muir is satisfied with the work done so far by the parasites (scolla maniae), which he imported from the Orient to offset the attacks of the Japanese rose beetle and the anomala. The parasites have been placed on a number of plants where their work is being closely observed.

### MADERA COMPANY'S MILL NOW IN FULL OPERATION

The mill of the Madera Gold Mining Company started running Sunday, according to a message received today by Harris MacKenzie, secretary of the company. The message reports that everything is running smoothly, and results of the first run will be cable within a few days, although it will take considerable time to ascertain the average value and recovery.

### RUGER MEDICAL SERGEANT IS GIVEN PROMOTION

A promotion was received by Sergeant First Class Frederick S. Simmons, Medical Department, at Fort Ruger. Sergeant Simmons is one of the oldest non-commissioned officers in the Medical Department, having been appointed a hospital steward in the army in 1900, and has served continuously in that grade for the past 17 years. The sergeant has been in the Hawaiian Department about two years, is well known here in the fraternity circles, and has a host of friends in the city who wish him all kinds of good luck.

### FRENCH FIGHTERS SEND THANKS TO HONOLULANS

Thanks and kindly expressions of aloha have come from the soldiers in the trenches, "somewhere in France," for the people of Honolulu who contributed a large and substantial amount of money for the purchase of the hot water bathing apparatus, which was sent to the fighting men in France. A letter containing the

### HONOLULU OIL KEEPS GOING UP

Among listed securities, the only one of any size was a block of 500 H. O. & S. Co. at 48.50, an advance of 20c over Saturday's selling price. Of the unlisted stocks Honolulu Oil rallied 5c, and 450 is now the asking price. Montana Bingham dropped to 41c on a sale of 200, and Madera sold at 42c and 41c. For Mineral Products Inc. was asked and 11c bid but no sales were recorded. Engels brought 68 1/2, the closing price Saturday.
